The ITALIAN TRADE AGENCY (ITA) is a government body operating under the Ministry of Foreign Affairs and International Cooperation. Our mission is to support and accelerate the global growth of Italian enterprises while promoting Italy as a prime destination for foreign investment.

The collaboration between Italy and India in the machine tool sector is fostering significant growth in India's manufacturing capabilities, enhancing the technological landscape through high-quality machinery and expertise.

According to the data provided by the Government of India in 2025, Italy is India's second largest supplier of metal-forming machine tools contributing to EUR 85 million with an overall market share of 10.14%. Indian imports of metal-forming machine tools from Italy grew at the rate of 57.83% during January–September 2025. Italy's market share in India rose from 8.82% in Jan–Sep 2024 to 10.14% in Jan–Sep 2025, indicating a growing demand for Italian metal forming machine tools in India.

On behalf of the Italian Trade Agency, I extend my heartfelt congratulations to the Indian Machine Tool Manufacturers' Association (IMTMA) for organizing IMTEX 2026. We wish all the exhibitors and visitors productive meetings and great success at the event.

**Antonietta Baccanari**  
ITA Trade Commissioner

Established in 1945, UCIMU-SISTEMI PER PRODURRE is the Italian machine tool, robots, automation systems and ancillary products (NC, tools, components, accessories) manufacturers' association.

The official and real representative of the Italian industry of the sector, UCIMU-SISTEMI PER PRODURRE has today more than 250 associate member companies, which account for more than 70% of the Made in Italy in the field.

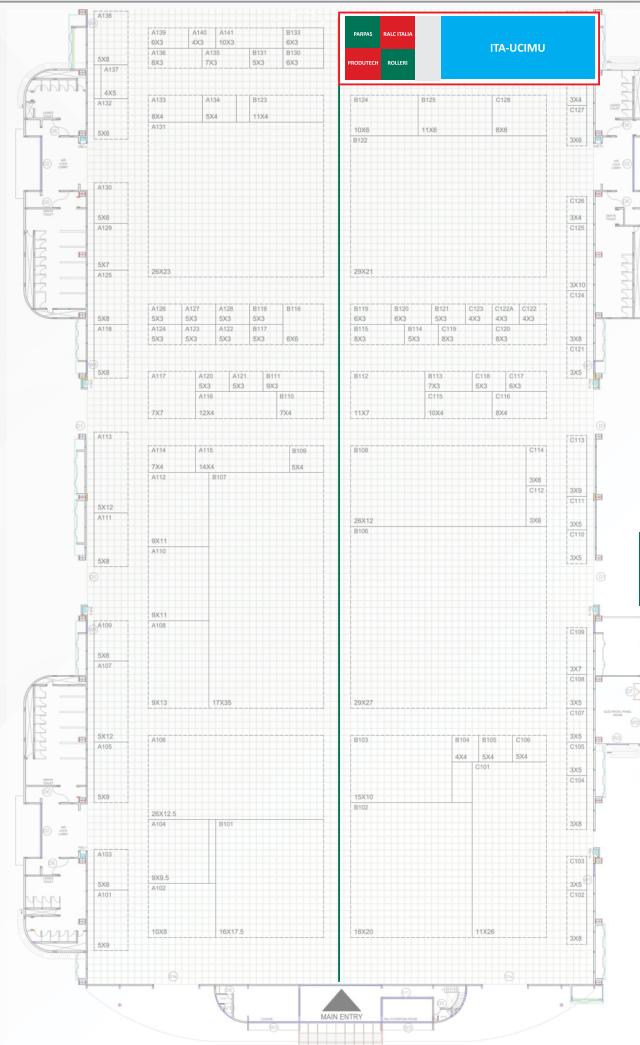

The association aims at safeguarding the interests of the sector by promoting the growth and dissemination of the entrepreneurial culture and by directly interacting with Italian and foreign authorities and institutions to bring the strengths and requests of the sector to their attention.

The value and the long-standing tradition of the associate member companies, expression of one of the sectors that most contribute to the whole manufacturing chain, along with the expertise of the association structure, make UCIMU one of the most authoritative representatives among international organisations.

GRUPPO PARPAS, worldwide technology leader, is byword of excellence in designing and manufacturing of high-accuracy machine tools for the automotive, aviation, space, general engineering and power generation sectors. Since 1951, GRUPPO PARPAS is renowned for its capacity to supply high-tech and high-performing solutions for milling, turning, boring and grinding operations on both metal and composite materials.

PRODUTECH is a globally recognized manufacturer of advanced coil-fed sheet metal processing systems, known for its innovative approach to punching, laser cutting and combined machining technologies. The company specializes in solutions that integrate flexibility with high-speed, high-precision performance, making it a preferred choice for industries that demand accuracy, efficiency and seamless workflow automation.

## Products and Services

- Coil-Fed Punching Systems
- Coil-Fed Laser Cutting Machines
- Coil-Fed Combined Punching and Laser Systems
- Automation & Software Solutions
- Technical Support & Services

RALC ITALIA is a leading Italian manufacturer specializing in automated tube and profile processing solutions. Known for its engineering precision and innovative approach, the company provides high-performance systems that streamline cutting, bending, drilling and end-working operations. With a strong focus on automation and efficiency, RALC ITALIA's machines help manufacturers reduce manual intervention, improve cycle times and achieve consistent production quality.

## Products and Services

- Tube & Profile Cutting Systems
- Forming & End-Working Machines
- Drilling & Punching Machines
- Automation & Software Solutions
- Technical Support & Services

ROLLERI is a globally recognized Italian brand specializing in the design and manufacturing of premium tooling systems for press brakes and punching machines. With decades of expertise, the company is known for delivering high-precision tools that enhance forming accuracy, machine performance and overall fabrication efficiency. ROLLERI's commitment to quality craftsmanship, advanced engineering and continuous innovation has made it a trusted partner for metalworking industries worldwide.

## Products and Services

- Press Brake Tooling
- Clamping and Tooling Systems
- Punching Tools
- Custom Tooling Solutions
- Technical Support and Service

# FICEP

Booth No : A132

FICEP is a globally recognized leader in the design and manufacturing of advanced machinery for steel processing and metal fabrication. Founded in Italy, the company specializes in automatic drilling, sawing, plasma and laser cutting, punching and structural steel fabrication systems. FICEP machines are known for their precision, durability and ability to optimize production workflows in demanding industrial environments.

## Products and Services

- Drilling and Sawing Systems
- Plasma and Laser Cutting Machines
- Punching and Forming Systems
- Structural Steel Fabrication Lines
- Automation and Software Solutions
- Global Support and Services
